FARM AND HOME FACTS

Buildings are good to eat only when young and tender.
It's easy to broil meat over an oil or gas stove with a broiler that catches the fat from the meat.
Complexions that are waterproof are spiffed from the inside with good food and health habits.

If you expect to have livestock next year you want to plant plenty of feed crops this spring.

Not all people on farms are real farmers; many are just getting by and need to change jobs.

Months' vet promises to be Alabama's leading vet - and also Alabama's leading winter legume.

It costs nothing for a farm boy to join a club, but to the boy who does so and does work right it means much more.

To keep step with progress a farmer must take advantage of power and machinery just as industries have done, are doing, and will continue to do.

The "Penny Wise" individual always runs purchasing cheap inferior glasses. He is really "Penny Wise" and "Pound Foolish."

Inferior glasses injure the sight, and this in turn injures the individual, whether bank president or street sweeper. He whose eyes are defective has his earning power reduced.

My glasses assure you that I am a normal earning power, at prices well within reason.

A PROCLAMATION BY THE GOVERNOR

WHEREAS, The Legislature of Alabama at an extraordinary or special session held under proclamation issued by Governor William W. Branley, which said Legislature convened at the State Capitol at Tuesday, December 25, 1926, has ordered an election by the qualified electors of the State of Alabama upon a certain proposed amendment to the Constitution of Alabama, which said amendment is heretofore set forth and has ordered that the election be held upon said proposed amendment to the Constitution of Alabama on Tuesday, the 12th day of April, 1927; and

WHEREAS, Notice of such election together with the proposed amendment is required by law to be given by proclamation of the Governor;

NOW THEREFORE, I, Bibb Graves, Governor of the State of Alabama, do hereby give notice direct and proclaim that on Tuesday, the 12th day of April, 1927, an election will be held at the several polling places within the State of Alabama for the vote of the qualified electors of the State of Alabama in the manner and form and place as required by law, upon the following amendment to the Constitution of Alabama, viz:

ARTICLE XX, Section 1. The State is authorized to enclose in this constitution, improvement, repair and maintenance of public roads, highways and bridges in the State of Alabama. To this end and for the purpose the State is authorized to acquire lands, funds, and also to issue and sell in addition to those already authorized and under Article XX, as an amendment to the Constitution of 1901, in an amount not to exceed the sum of twenty-five million dollars (\$25,000,000.00), to be loaned under such conditions, terms, and series, and maturing at such times as may be provided by law, all such bonds shall bear a rate of interest not greater than six per cent per annum payable semi-annually, and shall be sold at a price not less than the par value thereof. The State Highway Commission or Highway Department shall locate, construct, and maintain highways and State trunk roads so as to connect each county seat with the county seat of the adjoining county by the most direct or feasible route or by a permanent road, having due regard to the public welfare, and to connect the county seats of the several counties at or near the State line with a public road in the border State. Provided, that in counties which are divided into two or more judicial divisions in each of which regular terms of the circuit court are held, the places where said terms of court are held, shall likewise be connected with each other. It shall be the duty of the State Highway Commission or Highway Department to equitably apportion among the several counties of the State the expenditure of both money and labor and the time or times of making such improvement. Not less than one quarter of a million dollars of the proceeds of these bonds shall be set aside and expended by the State Highway Commission in each county in the State. To create a sinking fund for the prompt and faithful payment of the principal and the interest on these bonds and for the construction, maintenance and improvement of such public highways, roads and bridges, the Legislature shall levy an excise tax in addition to the levy made February 16, 1925, of two cents per gallon upon gasoline or any substitute therefor, or an adequate license or excise tax on any other motive power used to propel auto vehicles. Such bonds when issued shall be a direct obligation of the State, and for the prompt and faithful payment of the principal and the interest thereon, the full faith and credit of the State is hereby irrevocably pledged and such bonds shall be exempt forever from taxes of every kind.

I further direct and proclaim that notice of the election upon the above set forth amendment to the Constitution of Alabama, be given by publishing the same, once a week for eight successive weeks prior to the 12th day of April, 1927, in each County of the State of Alabama in a newspaper published in said County.

IN WITNESS WHEREOF, I have hereunto set my hand and have caused the great seal of the State to be affixed at the Capitol in the City of Montgomery, on this 28th day of January, 1927.

Helping Alabama Grow

And Keeping Pace With It

SUCCESSFUL industries are playing a big role in Alabama's growth. Every plant which comes into the state creates bigger markets for farm products, bigger payrolls for the town, more prosperity for every citizen.

Because its own prosperity and progress is irrevocably linked with that of Alabama and its people, your power company is actively at work to bring these industries to Alabama.

Within the next few weeks a big campaign of advertising Alabama will be launched in Eastern newspapers and magazines of national circulation.

These advertisements will point out the attractive opportunities which Alabama offers to new enterprises—its wonderful resources, its splendid labor reserve, its favorable climate, its marketing conditions and its marvelous development in recent years.

Among the big newspapers and magazines which will be used to tell this story are: The New York Times, the Chicago Tribune, the Philadelphia Public Ledger, the Boston Transcript, the Textile World, the American Wool and Cotton Reporter, the Furniture Manufacturer and Artisan, the Electrical World, Forbes Magazine and many others.

Advertising will be aggressively followed up by our New Industries Division, which maintains a staff of engineers and research workers to make surveys and assemble specific data for the information of prospective enterprises. Executives of Eastern enterprises will be interviewed and told of opportunities in Alabama.

Alabama Power Company asks for the co-operation of all civic bodies and other groups of patriotic citizens in this important task of helping Alabama grow!

Goodyear's New Balloon tire for Fords and Chevrolets

Ever since Balloon Tires were introduced, Goodyear has been experimenting with tread designs to develop a tread which would match the Goodyear Balloon Carcass made of Sup-r-tread Cord. Finally, out of all these tests has come the new tire shown above. It is the famous Goodyear All-Weather Tread scientifically redesigned for Balloon Tire use.

The first big advantages of this new tread are traction and resistance to skidding.

The sharp-edged diamond-shaped blocks are placed in a semi-flat design so that they not only grip the road but they retain their usefulness longer than any non-skid tread ever before tried.

The second big advantage is long, slow, even tread wear as opposed to the "cupping" and uneven wear so noticeable on many other Balloon Tires.

And with the virtues of traction, non-skid and long wear this new tread is perfectly quiet and does not produce the vibration of many non-skid designs.

Let us show you this new tire in the 29x4.40 size for the Fords and Chevrolets. Think what a wonderful tire it is for summer driving.

Suffered weak, nervous

"I WAS in a very weakened, run-down condition, surely in need of a tonic and building-up agent. Mrs. J. R. Wynn, of Anniston, Ala., writes: 'I was so weak I had to go to bed, and kept getting weaker.'"

"I suffered with my back so much. I was very nervous, couldn't rest good at night. I couldn't eat anything—I just wouldn't hunger."

"I had read so much of Cardui. I thought best to use it. I took seven or eight bottles, and by the time I had taken them I was stronger than I had been in several years."

Thousands of other women have found that the tonic effects of the purely vegetable ingredients of Cardui were restorative to normal health and strength. Its action has been found to be of great benefit in many common female ailments.

LEGION TRAVEL ARRANGEMENTS FOR PARIS

A total saving of \$5,000,000 will be made in the cost of the Paris convention trip of 30,000 members of The American Legion next September over that of a trans-Atlantic movement of a like proportion at the ordinary travel rates. It is estimated by S. C. Crockett Montgomery, Ala. Department France Convention Officer of this state who has made a detailed comparison of prices. This sum will represent an average saving of approximately \$175 by veteran taking the Legion pilgrimage.

Agreement of eighteen foreign governments to eliminate passport and visa charge, waiver of landing charge by French ports, freedom of the ship while at sea, and reduced rail-road fare are some of the benefits derived by those making the Legion Journey to the French government, organizations, and individuals are cooperating on a big scale will add to the delights of the Legion trip.

The cheaper grade accommodations on the Legion steamers from \$145.80 to \$230 averaging \$170. These accommodations on the official Legion steamers are better in every way than those of the ordinary "tourist cabin" on which the regular round trip to France charge is \$182, including tax, the Department France Convention Officer said. In addition, on the Legion steamers, the veterans occupying the cheaper accommodations will have the freedom of the entire ship and the actual cost value of this privilege in ordinary travel is \$88. This item added to the ordinary "tourist cabin" rate would bring the total ordinary rate to \$265 for the trip whereas the Legionnaire's rate is \$145.80 to \$230. Better food and superior state-room service of the Legion pilgrimage over the ordinary rate trip will make the Journey more enjoyable than an independent trip later.

NOTICE OF MORTGAGE SALE.

A breach of condition having occurred upon the mortgage dated February 15, 1923, executed by P. Jackson Han, and wife, Claude Belle Han to The Federal Land Bank of New Orleans, and records in the Probate Office at Elba, Alabama, in Mortgage Book No. 10, at Sec. 10, page 15th day of November, 1929, which default continues; and the mortgage under authority granted in said mortgage, having executed its option to declare the entire indebtedness secured by said mortgage due and payable at once, as there is provided, and instructed its undersigned attorney to advertise and foreclose said mortgage security, in accordance with the power contained in the mortgage, for the purpose of satisfying the said mortgage debt, together with the expenses and lawful charges incident thereto, and provided for under said mortgage.

Now, therefore, the said Federal Land Bank of New Orleans, by its undersigned attorney duly authorized, will sell the mortgaged premises, at public auction, for cash, to the highest bidder, at the West door of the County Courthouse in Elba, Alabama, at twelve o'clock P. M. on the 12th day of April, 1927, described in said mortgage, as follows: Southwest Quarter of Section 15, in Coffee County, Alabama, and containing 140 acres, more or less.

Said sale, as stated, is being made under the power and authority contained in said mortgage, and for the purpose of paying and satisfying the indebtedness thereon, secured by all lawful charges and expenses incident thereto.

SOLID LEATHER "PETERS WORK SHOES" \$1.98. MAYS-VAUGHN MERC. CO.

By using two-horse cultivators instead of a single plow, Prof. M. L. Nichols, county agent, says that teachers of vocational agriculture who studied this question last year found that the farmer can cultivate twice as much as the latter. This gives them time for chopping cotton, or for doing other farm work, perhaps cultivating more acres.

A MAN—LIKE A TACK—CAN ONLY GO AS FAR AS HIS HEAD.

"BETTER FARMING" DOESN'T MEAN HARDER WORK.

It includes sanitation, terracing, fertilizing, crop rotation, seed selection, soil preparation, cultivation diversification and logical marketing. It means more HEAD work and less HARD work.

It results in better farms, farmers and farmers' families. It brings health, wealth and wisdom. We have an intense longing to be used to any farmer friend who wants to throw his common-sense "in gear" and will co-operate.

JUDGE CARNLEY WRITES ABOUT PROPOSED ROAD BOND ISSUE.

An election will be held on April 12, 1927, for the purpose of voting on \$25,000,000 for building State Highways. Why we should vote for this Bond Issue is a pertinent inquiry now. Generally, we are against big bond issues and big debts. We must consider the proposed bond issue in the light of present conditions. What are these?

We have begun road construction in Alabama. We have pledged the tax for payment of principal and interest of the first issue of bonds in the sum of \$25,000,000. We have begun a system of roads which are not completed. With out more money now to go forward with road building in Alabama we would necessarily lose millions now invested. There are many, many miles of roads which should be built to connect the incomplete system. This cannot be done with out more money.

It is now proposed to vote for \$25,000,000. This issue will be paid out of the gasoline taxes. Property taxes will not be levied to pay this. Roads constructed will be maintained by the gasoline taxes. It is estimated that 2 cents on the gallon of gasoline will take care of the interest and create a sinking fund for the redemption or retirement of the bonds.

Gov. Graves advocated during his campaign for office of Governor the issuance and sale of \$25,000,000 of bonds. The people elected him, and he is now attempting to carry out his platform pledge. The question has really been settled, and there is now little opposition to the proposed issue. We must consider the question as one settled by a majority of the voters of Alabama.

By using two-horse cultivators instead of a single plow, Prof. M. L. Nichols, county agent, says that teachers of vocational agriculture who studied this question last year found that the farmer can cultivate twice as much as the latter. This gives them time for chopping cotton, or for doing other farm work, perhaps cultivating more acres.

SPECIAL SERVICES AT M. E. CHURCH SUNDAY. A special program is being arranged for the Elba Methodist Church next Sunday, April 3, when "Family Day" and "Sunday School Day" will be jointly observed. Included in the program will be a number of short addresses on timely subjects by some good speakers.

The pastor and church officials are anxious to have all members of the church, especially heads of families, as well as those who are friends of the church, present at these services, which will begin at 10 o'clock promptly.

FORD BUSINESS GOOD ACCORDING TO REPORT OF LOCAL DEALER.

Dorsey Brothers, local dealers report sales covering new and used cars are exceptionally good, and with more favorable weather conditions now prevailing, they are expecting even a nicer volume of sales.

According to reports their used car sales have been exceptionally good to which they attribute complete rebuilding, repainting with the various colors in which new Ford cars are now coming thru. These cars are receiving much comment as they go along the streets here and there, all seemingly to hit on all four. Mr. Grimes is doing all the repainting after being instructed by Ford authorities and is turning out some mighty attractive jobs.

All offices will be removed from their present location and placed to the rear of the show room which will be 50x32. Office fronts and other material is now being constructed by an Indianapolis firm and will be ready for installation within the next few days.

The repair department will be removed to the first floor which will insure more efficient and prompt handling of repair jobs, eliminating considerable loss of time heretofore entailed in carrying cars to the second floor.

For Those Who Use Motor Vehicles Will Have to Pay the Gasoline Tax Whether the Highway Amendment is Ratified or Defeated at the Special Election of Tuesday, April 12th.

The Gas Tax Pays It All

The only way the people of Alabama can win in this fight is to vote for the \$25,000,000 bond issue amendment and put through the program, pledged by the State Highway Commission to connect and improve the highways.

You get a piece of your gas tax money back every time you drive your car over an improved State-Federal bridge or road.
